Job notes, tasks performed and reason for leaving:

Summer Job- Spent my days performing data entry tasks to organize stock on the Minolta Website. Job was pretty flexible since I could work from home and I didn't have to go from my home in India to my workplace. The reason I left was that once most of the data entry was finished as there were multiple clerks doing the same thing, there was no reason to keep more people on. Plus, I was leaving back to the US so all work I did would be at midnight for the office in India and vice versa.
